

Product Information

Gaozaban

Gaozaban is a perennial herb from the Boraginaceae family, mainly found in temperate regions of Asia, especially the Himalayan belt. The plant grows about 30-60 cm tall with hairy stems, rough-textured leaves, and small bell-shaped flowers in shades of purple and violet. Its leaves are carefully collected, dried, and widely used in traditional medicine for their cooling and soothing qualities.

Onosma bracteatum

Indian Borage, Golden Drops

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 8:1

Soft Paste Extract

Active: -
Ratio: 5:1

Part Used: Leaves

Medicinal Uses

Onosma bracteatum is well known for its restorative and therapeutic properties. It is considered a natural tonic for the heart and nervous system, helping to strengthen cardiac health and reduce stress. With its diuretic and demulcent effects, it is beneficial in urinary tract issues, kidney ailments, and burning sensations. Gaozaban is also used to ease fever, cough, and other inflammatory conditions while supporting overall vitality and immunity. Because of these qualities, it is often included in traditional Ayurvedic and Unani formulations aimed at promoting general health and wellness.
