

Product Information

Hadjod, Vajravalli

Hadjod, Vajravalli is a fast-growing perennial vine native to India, Sri Lanka, and parts of Africa, thriving in warm, tropical climates. The plant is identifiable by its distinct quadrangular, fleshy, jointed green stems and small, greenish-white flowers followed by round, reddish berries. Its name means bone-setter, derived from its traditional use in promoting bone healing in Ayurvedic medicine.

Cissus quadrangularis

Veldt Grape

Active Ingredients

Dry Powder Extract

Active: 2.5% 3-Keto Steroids
Ratio: 15:1

Soft Paste Extract

Active: 1.5% 3-Keto Steroids
Ratio: 10:1

Part Used: Stem

Medicinal Uses

It is highly valued in Ayurveda for its bone-strengthening and anti-inflammatory properties. It is traditionally used to accelerate fracture healing, reduce swelling, and improve joint health. The plant contains rich amounts of vitamin C, calcium, and phytosterols, which promote collagen synthesis, enhancing bone mineral density and supporting tissue repair. Hathjoda also possesses analgesic and antioxidant properties, making it effective in managing conditions such as arthritis, osteoporosis, and joint pain. Additionally, it is used to support digestive health, aid weight management, and reduce oxidative stress. Due to its wide range of benefits, Cissus quadrangularis is often incorporated into Ayurvedic formulations and dietary supplements.

Purity: 100%
Shelf Life: 36 Months
Size: 1kg, 5kg, 25kg
Country of Origin: India
