

Product Information

Haldi, Hardi

Haldi, Hardi is a flowering plant belonging to the ginger family, native to South Asia. The rhizome is bright yellow and is widely used as a spice and in traditional medicine. Turmeric has been revered for its anti-inflammatory, antioxidant, and antimicrobial properties. Its active compound, curcumin, is responsible for many of its health benefits and is often used in Ayurveda.

Curcuma longa

Turmeric

Active Ingredients

Dry Powder Extract

Active: 12% Curcuminoids
Ratio: 10:1

Soft Paste Extract

Active: 8% Curcuminoids
Ratio: 7:1

Part Used: Rhizome

Medicinal Uses

Curcuma longa is a very versatile herb with its roots in ancient medicine. The active yellow pigment, curcumin, is responsible for the strong anti-inflammatory and antioxidant action of Haldi. These properties make Haldi a useful tool for overall health and well-being. It finds wide application in skin disorders, such as acne, pigmentation, and inflammation. This spice can also fortify the immune system, ensure easy digestion, and provide an efficient liver. In case of arthritis, it heals up the pain in the joints and the swelling part of it. Haldi aids in the process of wound healing and prevents heart problems by keeping cholesterol in check.
