Product Information

Kachura

Kachura is a perennial rhizomatous herb of the Zingiberaceae family, native to Southeast Asia and cultivated in India. The plant has lance-shaped, dark green leaves with a distinctive camphor-like or mango-like aroma. Resembling turmeric in appearance, its bark and rhizomes are the primary parts used in traditional Ayurvedic medicine. Curcuma zedoaria thrives in warm, humid climates with well-drained, fertile soils.

Ratio: 5:1

Medicinal Uses

Curcuma zedoaria is valued in Ayurveda for its digestive, carminative, and anti-inflammatory properties. The rhizome is traditionally used to stimulate appetite, improve digestion, and relieve bloating and flatulence. It also supports liver and gallbladder health, aids in detoxification, and has antimicrobial and antioxidant effects. Rich in bioactive compounds such as curcuminoids and essential oils, Kachura is used to reduce inflammation, boost immunity, and promote overall vitality and wellness.

Part Used: Bark

Purity: 100%

Shelf Life: 36 Months

Size: 1kg, 5kg, 25kg

Country of Origin: India

Your Trusted Source For Premium Botanical Extracts, For Over **25+ years**
