

Product Information

Kalihari

Kalihari is a perennial tuberous climber of the Colchicaceae family, native to tropical Africa and Asia. The plant has slender, climbing stems with tendrils at the leaf tips and produces striking flowers with wavy, reflexed petals in yellow, orange, and red. The seeds are the primary medicinal part, used in traditional Ayurvedic and Unani medicine. All parts contain colchicine and must be used with caution.

Gloriosa superba

Glory Lily

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 9:1

Soft Paste Extract

Active: -
Ratio: 6:1

Part Used: Seeds

Medicinal Uses

Gloriosa superba is highly regarded in Ayurveda for its anti-inflammatory, analgesic, and purgative properties. The tubers are traditionally used to manage joint pain, gout, and muscular disorders, as well as to support digestive health. They also exhibit antimicrobial, diuretic, and blood-purifying effects. Rich in bioactive alkaloids such as colchicine, Kalihari is used in formulations for enhancing immunity, promoting detoxification, and maintaining overall vitality. Due to its potent nature, it must be used carefully under proper guidance.
