Medicinal Uses

Centratherum anthelminticum is a medicinal herb commonly used in Ayurvedic medicine for its various therapeutic properties. It is known for its anti-inflammatory, antimicrobial, and antioxidant effects. Kalijiri is often used to treat digestive issues, including indigestion, bloating, and gas, and it helps in detoxifying the body. It is also used to manage skin disorders like eczema and psoriasis due to its ability to reduce inflammation and infections. Additionally, Kalijiri is believed to improve liver function, boost immunity, and support overall health by balancing bodily systems and promoting detoxification.
