

Product Information

Kamalpushp, Nilofar

Kamalpushp, Nilofar is a sacred aquatic plant of the Nelumbonaceae family, widely cultivated across Asia. The plant produces large, round, floating leaves and striking flowers that rise above the water surface in white or pink hues. The flowers are the primary medicinal part, harvested at their peak bloom. Nelumbo nucifera has been used in traditional Ayurvedic medicine for its cooling, astringent, and tonic properties.

Nelumbo nucifera

Lotus

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 6:1

Soft Paste Extract

Active: -
Ratio: 4:1

Part Used: Flower

Medicinal Uses

Nelumbo nucifera is traditionally used in Ayurveda for its cooling, cardiogenic, and rejuvenating properties. The flowers help calm the mind, reduce stress, and support heart health. Lotus also exhibits anti-inflammatory, antioxidant, and astringent effects, making it beneficial for skin care, bleeding disorders, and digestive issues. Rich in flavonoids, alkaloids, and essential nutrients, it supports immunity, metabolic function, and overall vitality. Its therapeutic properties make Kamalpushp a valuable ingredient in herbal formulations for mental relaxation, skin wellness, and general health support.
