

Product Information

Kapoor Kachari

Kapoor Kachari is a perennial herb from the Zingiberaceae family, thriving in the Himalayan regions of India at 1,500–2,500 meters. The plant has lance-shaped, dark green leaves and fragrant, pale yellow to orange flowers with a reddish base. Its aromatic, thick, fibrous rhizomes are harvested for medicinal use. Known for its distinctive camphor-like aroma, it is used in Ayurvedic medicine, perfumery, and traditional healing practices.

Hedychium spicatum

Spiked Ginger Lily

Active Ingredients

Dry Powder Extract

Active: –

Ratio: 10:1

Soft Paste Extract

Active: –

Ratio: 7:1

Part Used: Seeds

Medicinal Uses

Hedychium spicatum is highly valued in Ayurveda for its anti-inflammatory, antimicrobial, and digestive properties. The rhizomes are used to treat respiratory disorders, improve digestion, and relieve congestion. It acts as an expectorant, helping to clear phlegm and soothe coughs. Its antimicrobial nature makes it effective in preventing infections and promoting wound healing. Additionally, Kapoor Kachari is used in hair care formulations to strengthen hair roots and prevent dandruff. Its aromatic nature also makes it a popular ingredient in Ayurvedic oils and herbal cosmetics, enhancing skin and scalp health.
