

Product Information

Khair, Khadira

Khair, Khadira is a deciduous tree of the Fabaceae family, distributed across India and Southeast Asia. It grows 10-15 meters tall with dark, rough bark and feathery leaves, bearing small yellow flower clusters and flat seed pods. Its heartwood yields catechu or katha, a dark extract traditionally used in paan, medicine, and tanning. Acacia catechu is highly valued for both its commercial and therapeutic significance.

Acacia catechu

Cutch Tree

Active Ingredients

Dry Powder Extract

Active: 30% Tannins
Ratio: 15:1

Soft Paste Extract

Active: 20% Tannins
Ratio: 12:1

Part Used: Bark

Medicinal Uses

Acacia catechu is an important Ayurvedic herb known for its cleansing, astringent, and restorative qualities. Its bark and extract are used to support oral health, treating gum ailments, sore throat, and mouth ulcers. With its cooling, antioxidant, and anti-inflammatory properties, it helps in managing diarrhea, skin diseases, blood impurities, and respiratory issues. Khair is also recognized as a natural detoxifier that aids digestion, boosts immunity, and contributes to overall health and wellness.
