

Product Information

Kuda Chaal, Kutaj

Kuda Chaal, Kutaj is derived from *Holarrhena antidysenterica*, a small to medium deciduous tree of the Apocynaceae family, native to India's dry forests and scrublands. The tree has a straight trunk, rough grey bark, simple opposite leaves, and small, fragrant white flowers. Bark, seeds, and roots are primarily used in Ayurvedic medicine. Kuda Chhal thrives in well-drained soils under sunny conditions.

Holarrhena antidysenterica

Easter Tree, Conessi Bark

Active Ingredients

Dry Powder Extract

Active: 3% Alkaloids
Ratio: 8:1

Soft Paste Extract

Active: 1.5% Alkaloids
Ratio: 5:1

Part Used: Bark

Medicinal Uses

Holarrhena antidysenterica is traditionally used in Ayurveda for its astringent, antidiarrheal, and antimicrobial properties. It is highly effective in managing digestive disorders such as diarrhea, dysentery, and intestinal infections. The bark also supports liver function, aids in detoxification, and helps reduce inflammation. Rich in bioactive alkaloids, Kuda Chhal strengthens immunity, promotes overall digestive health, and enhances general vitality and wellness. Its potent therapeutic effects make it a key ingredient in traditional formulations for gastrointestinal health.

Purity: 100%
