

Product Information

Kulinjan

Kulinjan is a perennial herb of the Zingiberaceae family, native to Southeast Asia and cultivated in tropical regions, growing up to 2 meters. It features long, lance-shaped, glossy green leaves and pale-yellow flowers with dark-red veins. Its aromatic rhizome is reddish-brown outside and pale inside with a strong, spicy flavor is the primary source of its medicinal and culinary value. Kulinjan thrives in warm, humid, well-drained soil.

Alpinia galanga

Greater Galangal

Active Ingredients

Dry Powder Extract

Active: 5% Polyphenol
Ratio: 10:1

Soft Paste Extract

Active: 3% Polyphenol
Ratio: 8:1

Part Used: Root

Medicinal Uses

Alpinia galanga is highly valued in Ayurveda for its anti-inflammatory, antimicrobial, and digestive properties. It is widely used to relieve respiratory disorders, such as asthma, bronchitis, and cough, by clearing mucus and promoting easier breathing. Additionally, its potent digestive benefits help improve appetite, reduce bloating, and alleviate indigestion. Kulinjan is also known to boost immunity, enhance circulation, and relieve joint pain due to its antioxidant and anti-inflammatory effects. Furthermore, it acts as a natural tonic to support overall vitality and is used in various Ayurvedic formulations for its therapeutic potential.
