

Product Information

Kulthi

Kulthi is an annual leguminous plant of the Fabaceae family, commonly called Horse Gram, widely cultivated in India for its edible seeds. It has slender, climbing stems, trifoliate leaves, and small purple or white flowers that develop into seed pods. Kulthi thrives in well-drained soils under sunny conditions and is valued for its nutritional and therapeutic properties. Both seeds and leaves are used in traditional Ayurvedic medicine.

Vigna unguiculata

Horse Gram

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 7:1

Part Used: Seeds

Medicinal Uses

Vigna unguiculata, Dolichos biflorus is traditionally used in Ayurveda for its diuretic, digestive, and anti-inflammatory properties. The seeds help manage urinary disorders, kidney stones, and digestive issues such as constipation and bloating. Kulthi also exhibits antioxidant, hypoglycemic, and wound-healing effects, supporting overall wellness and vitality. Rich in proteins, dietary fiber, and bioactive compounds, it aids in metabolism, weight management, and energy provision. Its therapeutic properties make Kulthi a valuable ingredient in herbal formulations for kidney health, digestion, and general wellbeing.
