

Product Information

Kutki (Kadu)

Kutki (Kadu) is a perennial herb native to the Himalayas and other mountainous regions of Asia. It is known for its bitter taste and has been traditionally used in Ayurvedic medicine for its hepatoprotective properties. The root is valued for its ability to support liver health and improve digestion while also exhibiting anti-inflammatory effects.

Picrorrhiza kurroa

Picrorrhiza, Kutki

Active Ingredients

Dry Powder Extract

Active: 3% Kutkin, 4% Bitters
Ratio: 4:1

Soft Paste Extract

Active: 2% Kutkin, 2.5% Bitters
Ratio: 3:1

Part Used: Root

Medicinal Uses

It is famous for its wide range of therapeutic benefits, which include liver, digestion, inflammation, and immune responses. Being a very strong liver tonic, Kutki helps in detoxification and supports the liver in getting rid of toxins. It is mainly used in the treatment of jaundice and fatty liver. Apart from the liver, Kutki works wonders on the digestive system, improving digestion and overcoming complaints of indigestion and acidity. Anti-inflammatory in nature, it is also used in inflammatory diseases such as arthritis and skin conditions like eczema. By helping in the immune system, Kutki enhances immunity against infections. It has effects on the respiratory system and can be useful in patients with asthma and bronchitis.
