

Product Information

Lodhra

Lodhra is a small tree native to the Indian subcontinent, known for its fragrant white flowers and small berry-like fruits. In traditional medicine, it is valued for its astringent, anti-inflammatory, and antimicrobial properties. Used in Ayurvedic treatments for skin conditions, digestive issues, and menstrual disorders, its bark and leaves are included in herbal formulations to detoxify the body and improve skin health.

Symplocos racemosa

Lodh Tree

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 7:1

Part Used: Bark

Medicinal Uses

Symplocos racemosa is a medicinal plant used in Ayurvedic medicine for its numerous health benefits. It is known for its anti-inflammatory, antimicrobial, and astringent properties. Lodhra is commonly used to treat skin conditions like acne, eczema, and wounds due to its ability to promote healing and reduce infections. It is also beneficial for digestive health, helping to manage diarrhea, indigestion, and stomach ulcers. Additionally, Lodhra is used to treat menstrual disorders, reduce excess bleeding, and support uterine health. Its antioxidant properties also help in detoxifying the body and boosting the immune system.
