

Product Information

Neem Beej

Neem Beej is derived from *Azadirachta indica*, a fast-growing evergreen tree of the Meliaceae family, native to India and widely found in tropical and subtropical regions. The tree has pinnate leaves, fragrant white flowers, and small green-to-yellow fruits containing the seeds. The seeds, leaves, bark, and oil are extensively used in Ayurvedic and traditional medicine. Neem thrives in well-drained, sunny locations.

Azadirachta indica

Margosa Tree

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 6:1

Soft Paste Extract

Active: -
Ratio: 5:1

Part Used: Seeds

Medicinal Uses

Azadirachta indica is highly valued in Ayurveda for its antimicrobial, anti-inflammatory, and blood-purifying properties. The seeds are traditionally used to prepare Neem oil, which helps manage skin disorders, infections, and wounds. Neem Beej also supports liver function, aids in detoxification, and boosts immunity. Rich in bioactive compounds such as azadirachtin, nimbin, and flavonoids, it promotes overall wellness, maintains oral and dental health, and contributes to general vitality. Its therapeutic properties make it a cornerstone ingredient in herbal formulations for skin, immunity, and detoxification.
