

Product Information

Palash Pushp

Palash Pushp is a medium to large deciduous tree of the Fabaceae family, native to India and found in dry forests, riverbanks, and roadsides. The tree has a straight trunk, pinnate leaves, and striking bright orange-red flowers in clusters, known for their vibrant color and cultural significance. Flowers, seeds, leaves, and bark are used in traditional Ayurvedic medicine. It thrives in well-drained soils with full sunlight.

Butea monosperma

Bastard Teak, Flame of the Forest

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 7:1

Part Used: Flower

Medicinal Uses

Butea monosperma is traditionally used in Ayurveda for its astringent, anti-inflammatory, and blood-purifying properties. The flowers help manage digestive disorders, promote liver health, and support detoxification. They also exhibit antimicrobial, antioxidant, and anti-inflammatory effects, enhancing immunity and overall wellness. Rich in bioactive compounds such as flavonoids and tannins, Palash Pushp is used in formulations for gastrointestinal health, skin care, and general vitality. Its therapeutic and rejuvenating properties make it a valuable ingredient in herbal preparations.

Purity: 100%
