

Product Information

Pashanbhed

Pashanbhed is a perennial herb of the Saxifragaceae family, commonly found in the Himalayan region of India, thriving in rocky, high-altitude terrains. The plant has slender stems, basal leaves, and produces small white to pinkish flowers. Its roots and whole plant are used in traditional Ayurvedic medicine. Pashanbhed grows well in well-drained, stony soils and is highly valued for its medicinal properties.

Bergenia ligulata

Elephant Ears, Rockfoil

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 8:1

Part Used: Root

Medicinal Uses

Bergenia ligulata, Saxifraga ligulata is traditionally used in Ayurveda for its diuretic, lithotriptic, and kidney-supportive properties. The plant helps in the management of kidney stones, urinary tract disorders, and water retention. It also exhibits anti-inflammatory, antimicrobial, and antioxidant effects, promoting overall wellness and detoxification. Rich in bioactive compounds such as flavonoids and saponins, Pashanbhed supports urinary health, aids digestion, and enhances general vitality. Its therapeutic properties make it a key ingredient in herbal formulations for renal and urinary health.
