

Product Information

Punarnava

Saptarangi is a woody climbing shrub of the Celastraceae family, found in India, Sri Lanka, and tropical Asia. The plant has thin, spreading branches with greenish bark, simple oval-shaped leaves, and small greenish-yellow flowers in clusters. Its round, orange to reddish fruits further distinguish it. Traditionally, the roots and stems of Saptarangi have been widely used in herbal medicine for their therapeutic value.

Active Ingredients

Dry Powder Extract

Active: 0.5% Alkaloids
Ratio: 10:1

LET'S CONNECT

Medicinal Uses

It is recognized for its properties as a diuretic, anti-inflammatory, and rejuvenator. It is traditionally used for its beneficial actions on the kidneys and liver. It manages kidney disorders by normalizing water retention and helping proper urination. It has been found useful in diseases of the liver, like jaundice and fatty liver, as it acts on the detoxification of the liver. Punarnava supports respiratory health and helps in alleviating symptoms of asthma and bronchitis. Anti-inflammatory properties of the plant provide relief from arthritis and other inflammatory conditions. This can also be used to manage weight through its facilitation of metabolism and reduction of bloating. In enhancing immunity and overall vitality.
