

Product Information

Rohitaki, Pithraj

Rohitaki, Pithraj is a medium to large evergreen tree of the Meliaceae family, found in forests of India and Southeast Asia. The tree has dense foliage, pinnate leaves, and reddish-brown bark the most valued part medicinally. Small, fragrant flowers bloom in clusters, followed by fruit capsules with winged seeds. Rohitaki is recognized in Ayurveda for its therapeutic properties and is regarded as a tree of high medicinal importance.

Aphanamixis polystachya

Rohituka Tree

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 8:1

Soft Paste Extract

Active: -
Ratio: 6:1

Part Used: Bark

Medicinal Uses

Aphanamixis polystachya is widely used in Ayurvedic medicine for its potent healing qualities. It is considered beneficial in liver disorders, spleen enlargement, and digestive ailments. Its bitter and astringent nature helps improve appetite, stimulate digestion, and support detoxification. Rohitaki bark is also known for its effectiveness in managing anemia, hemorrhoids, and menstrual imbalances. With anti-inflammatory, hepatoprotective, and blood-purifying actions, it plays a significant role in promoting overall health and restoring balance to the body.
