

Product Information

Sallai Guggul

Sallai Guggul is a deciduous tree native to the Indian subcontinent particularly found in dry areas known for its thick trunk and small serrated leaves. The resin harvested from incisions made in the bark has been used historically in traditional medicine due to its anti-inflammatory properties making it essential for treating joint-related conditions.

Boswellia serrata

Indian Frankincense

Active Ingredients

Dry Powder Extract

Active: 50% Boswellic Acid
Ratio: 3:1

Soft Paste Extract

Active: -
Ratio:

Part Used: Gum resin

Medicinal Uses

Boswellia serrata is a very potent plant in Ayurveda, anti-inflammatory, and pain-healing. It effectively manages a variety of health disorders, including arthritis, wherein it reduces pain and swelling to ensure good health of the joints and maintains their mobility. Other benefits of Salai Guggul include the promotion of digestion, liver detoxification, and immunity, all factors that have a bearing on one's well-being.
