

Product Information

Saptarangi

Saptarangi is a woody climbing shrub of the Celastraceae family, found in India, Sri Lanka, and tropical Asia. The plant has thin, spreading branches with greenish bark, simple oval-shaped leaves, and small greenish-yellow flowers in clusters. Its round, orange to reddish fruits further distinguish it. Traditionally, the roots and stems of Saptarangi have been widely used in herbal medicine for their therapeutic value.

Salacia chinensis

Chinese Salacia

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 5:1

Part Used: Root

Medicinal Uses

Salacia chinensis is highly regarded for its role in managing metabolic and lifestyle-related disorders. It is best known for its antidiabetic properties, as it helps regulate blood sugar levels and improve insulin sensitivity. The plant also supports healthy digestion, promotes weight management, and helps maintain cholesterol balance. With its antioxidant, anti-inflammatory, and hepatoprotective qualities, Saptarangi strengthens overall metabolic health and protects vital organs. Its rejuvenating nature makes it a valuable herb for promoting long-term wellness and vitality.
