

Product Information

Sarpagandha

Sarpagandha is a small, evergreen perennial shrub native to India and Southeast Asia, growing up to 60 cm in tropical and subtropical climates. The plant has elongated, lance-shaped, dark green leaves in whorls of three, and small tubular pink, purple, or white flowers in clusters at branch tips. It produces small, round, reddish-black berries. The deep roots are the primary medicinal part due to their potent therapeutic properties.

Rauvolfia serpentina

Indian Snakeroot

Active Ingredients

Dry Powder Extract

Active: 4% Alkaloids
Ratio: 7:1

Soft Paste Extract

Active: 2.5% Alkaloids
Ratio: 5:1

Part Used: Root

Medicinal Uses

Rauvolfia serpentina is renowned in Ayurveda for its hypotensive, sedative, and anti-hypertensive properties. It is primarily used to reduce high blood pressure, calm the nervous system, and manage insomnia. The active compound reserpine found in its roots helps lower blood pressure and induces relaxation by affecting the central nervous system. Sarpagandha is also effective in treating anxiety, mental agitation, and epilepsy. Additionally, it is used to manage snake bites, insect stings, and certain skin conditions. Due to its powerful effects, it should be used under medical supervision to avoid adverse side effects.

Purity: 100%
Shelf Life: 36 Months
Size: 1kg, 5kg, 25kg
Country of Origin: India
