

Product Information

Shankhpushpi

Shankhpushpi is a small, perennial herb of the Convolvulaceae family, native to the Indian subcontinent and found in tropical and subtropical regions. The plant has slender, creeping stems with ovate, light green leaves and produces funnel-shaped, pale blue to white flowers in clusters. Thriving in well-drained, sandy soils in grasslands and open fields, its roots and aerial parts are most used in traditional healing systems.

Convolvulus pluricaulis

Morning Glory, Aloe Weed

Active Ingredients

Dry Powder Extract

Active: 2% Bitters
Ratio: 10:1

Soft Paste Extract

Active: 1% Bitters
Ratio: 7:1

Part Used: Whole plant

Medicinal Uses

Convolvulus pluricaulis is renowned for its numerous medicinal benefits, especially in Ayurvedic medicine. The plant is primarily used for its cognitive-enhancing properties, known to improve memory, concentration, and mental clarity. Shankhpushpi is often referred to as a natural brain tonic, helping in reducing stress, anxiety, and promoting mental calmness. It is also beneficial for improving sleep quality due to its mild sedative effects. Additionally, Shankhpushpi has anti-inflammatory, antioxidant, and rejuvenating properties, making it helpful in managing conditions like hypertension, fatigue, and overall weakness. It is considered a valuable herb for improving the nervous system and supporting overall cognitive function.
