

Product Information

Shikakai

Shikakai is a climbing shrub native to tropical forests of India and Southeast Asia, growing up to 5-6 meters with thorny branches and feathery compound leaves. It produces dark brown, pod-like fruits containing shiny black seeds. The pods, leaves, and bark are rich in saponins that create a natural lather when mixed with water. Shikakai thrives in warm, arid regions and is harvested for its medicinal and cosmetic properties.

Acacia concinna

Soap Pod

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 3:1

Soft Paste Extract

Active: -
Ratio: 2:1

Part Used: Fruit

Medicinal Uses

Acacia concinna is widely known for its natural cleansing and conditioning properties, making it an essential ingredient in Ayurvedic hair care. It gently cleanses the scalp, removes dandruff, and strengthens hair roots, promoting healthy hair growth. Its rich antioxidant content helps soothe scalp irritation and prevents infections. Beyond hair care, Shikakai is used to treat skin disorders and minor wounds due to its antimicrobial properties. Regular use of Shikakai enhances hair texture, adds shine, and keeps the scalp nourished without stripping away natural oils.

Purity: 100%
Shelf Life: 36 Months
Size: 1kg, 5kg, 25kg
Country of Origin: India
