

## Product Information

### Tejpatra

Tejpatra is an evergreen, aromatic tree of the Lauraceae family, commonly found in the Indian subcontinent. It is a medium-sized tree with shiny green, ovate leaves with a characteristic fragrance and three distinct parallel veins. These leaves known as bay leaves are widely used as a culinary spice for their unique aroma and flavor and are also treasured for their therapeutic applications in traditional healing practices.

### Cinnamomum tamala

Indian Bay Leaf

#### Active Ingredients

##### Dry Powder Extract

Active: -  
Ratio: 6:1

##### Soft Paste Extract

Active: -  
Ratio: 4:1

Part Used: Leaves

#### Medicinal Uses

Cinnamomum tamala is traditionally used in Ayurveda for its medicinal properties. It helps improve digestion, stimulates appetite, and reduces problems like gas, bloating, and indigestion. The leaves are known for their antimicrobial, anti-inflammatory, and antioxidant effects, which support immunity and protect the body from infections. They also aid in respiratory wellness by relieving cough, cold, and congestion. Additionally, Tejpatra supports healthy blood sugar management, improves heart function, and promotes natural detoxification, making it both a culinary spice and a therapeutic herb.
