

Product Information

Udumber Bark

Udumber Bark is derived from a large, deciduous tree of the Moraceae family, well recognized for its smooth grey bark, broad green leaves, and unique fruits growing in clusters from the trunk and branches. The tree is found in India and other tropical regions, thriving in warm and moist climates. Every part bark, leaves, roots, and fruits holds medicinal importance and has been traditionally used in various healing practices.

Ficus racemosa

Cluster Fig Bark

Active Ingredients

Dry Powder Extract

Active: -

Ratio: 10:1

Soft Paste Extract

Active: -

Ratio: 7:1

Part Used: Bark

Medicinal Uses

Ficus racemosa is valued for its potent therapeutic properties. It is known for its astringent, cooling, and healing effects, making it beneficial in treating skin ailments, ulcers, and wounds. It supports digestive health by helping manage diarrhea, dysentery, and acidity. Udumber bark is also considered effective in balancing excessive bleeding disorders and strengthening overall immunity. With its anti-inflammatory, antibacterial, and restorative actions, it plays a significant role in promoting internal healing and maintaining overall health and wellness.
