

Product Information

Indrajau

Inderjau (*Holarrhena pubescens*) is a small to medium-sized deciduous tree from the Apocynaceae family. It has greyish bark, opposite elliptical leaves, and attractive white, fragrant flowers. Its fruits are long, slender, paired follicles containing numerous seeds covered with fine hairs.

Wrightia tinctoria

Pala Indigo Plant

Active Ingredients

Dry Powder Extract

Active: 2% Alkaloids
Ratio: 7:1

Soft Paste Extract

Active: 1% Alkaloids
Ratio: 5:1

Part Used: Seeds

Medicinal Uses

Inderjau has been traditionally valued in Ayurveda for its digestive and astringent properties. Its bark and seeds are commonly used to support digestive health and are traditionally associated with managing diarrhoea, dysentery, and intestinal discomfort. The plant has also been investigated for its antioxidant, antimicrobial, and anti-inflammatory potential. Traditionally, Inderjau is also valued for supporting healthy intestinal function and maintaining digestive balance. Its natural bioactive compounds have made it an important subject of interest in traditional herbal formulations.
