

Product Information

Kakdasinghi

Kakdasinghi (*Pistacia integerrima*) is a small to medium-sized deciduous tree of the Anacardiaceae family. It has pinnate leaves, small flowers, and characteristic horn-shaped galls that develop on its branches due to insect activity. These galls are the most commonly used part of the plant and are traditionally valued for their medicinal properties.

Pistacia integerrima

Crab's Claw, Zebrawood

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 7:1

Soft Paste Extract

Active: -
Ratio: 5:1

Part Used: Root

Medicinal Uses

Kakdasinghi is traditionally used in Ayurveda, especially for respiratory and digestive support. Its galls are commonly used to help soothe cough, throat irritation, bronchial discomfort, and breathing difficulties. They are also known for their astringent properties and have been explored for potential antioxidant, antimicrobial, and anti-inflammatory effects. It is also traditionally valued for supporting healthy digestion and maintaining overall respiratory comfort. Its natural properties make it a useful ingredient in various traditional herbal formulations.
