

Product Information

Santra Chhilka

Santra Chhilka is the dried peel of *Citrus aurantium*, also known as bitter orange. The plant is a small evergreen tree from the Rutaceae family, with glossy green leaves, fragrant white flowers, and round orange fruits. The peel has a distinct aroma and is commonly dried for use in traditional herbal preparations.

Citrus aurantium

Orange Peel

Active Ingredients

Medicinal Uses

Santra Chhilka is traditionally used to support digestion and appetite. It is valued for its aromatic and antioxidant properties and is commonly included in herbal preparations for occasional digestive discomfort. The natural flavonoids and essential oils present in the peel contribute to its traditional health-supporting properties. It is also traditionally appreciated for its refreshing and cleansing qualities, making it a useful ingredient in various herbal formulations. The peel's natural aromatic compounds are valued for promoting a pleasant and balanced digestive experience.
