

Product Information

Talmakhana, Kokilaksha

Talmakhana (*Asteracantha longifolia*) is a spiny aquatic herb of the Acanthaceae family. It grows mainly in wet and marshy areas, especially near ponds and other water bodies. The plant has slender leaves, spiny stems, and small bluish-purple flowers. Its seeds are the main part traditionally used in herbal preparations.

Asteracantha longifolia

Marsh Barbel, Long-leaved Barleria

Active Ingredients

Dry Powder Extract

Active: 0.3% Alkaloids
Ratio: 10:1
