

Product Information

Wheat Grass

Wheatgrass (*Triticum aestivum*) is the young green shoot of the common wheat plant, belonging to the Poaceae family. It has slender, upright green leaves and is harvested during the early stage of growth, before the plant fully matures. Wheatgrass is commonly used in the form of fresh juice, powder, and other herbal preparations.

Triticum aestivum

Active Ingredients

Dry Powder Extract

Active: -
Ratio: 8:1

Soft Paste Extract

Active: -
Ratio: 5:1
