

FRV-110

HEAVY DUTY LOW VIBRATION AIR FILE

Experience the exceptional performance of our reciprocating machine, a perfect blend of power, high speed, and remarkably low vibration and noise levels. Its high speed allows for faster work, while the low vibration levels enable you to work all day without fatigue. Try it and experience the difference!

IDEAL FOR

LARGER FILING JOBS
MOLD MAKERS
WORKSHOPS AND FOUNDRIES
STEEL, IRON AND ALUMINUM, ETC.

Key Features of FRV-110

Powerful and High Speed: The machine is designed for high productivity.

Heavy Duty Design: making it suitable for workshops and foundries.

Low Vibration and Noise Levels: Work all day without getting tired or experiencing fatigue.

Rotating Throttle: Maximum comfort for the operator

Options: For files with shank size of 6 mm (1/4 Inch) or less.

MANUFACTURED
IN SWEDEN
