

Avatar Medical to Showcase “The Clinic of the Future,” at HIMSS 2026

Live session at Dell Technologies’ Booth# 2531 with Chief Business Officer Todd Goldberg

MOUNTAIN VIEW, Calif. - MARCH 5, 2026 - Award winning [Avatar Medical](#) will exhibit within the Dell Technologies booth at the HIMSS Global Conference & Exhibition, demonstrating its advanced medical visualization technology that transforms CT and MRI scans into intuitive, lifelike 3D anatomy. In collaboration with Barco and Dell Technologies, Avatar Medical will highlight how next-generation visualization improves clinical communication, patient understanding, and surgical planning.

BOOTH SESSION PRESENTATION: Avatar Medical’s Chief Innovation Officer and Co-founder, Mohamed El Beheiry, will present “*The Clinic of the Future - The Cornerstone of Patient Loyalty*,” exploring how immersive visualization and patient-centered consultation experiences strengthen trust, improve comprehension, and support long-term patient retention.

WHEN: March 12, 12:00 PM

WHERE: HIMSS Global Conference & Exhibition
Venetian Convention & Expo Center, Las Vegas
Dell Technologies Booth #2531

About Avatar Medical

Founded in 2020, Avatar Medical is leading the evolution from medical imaging to medical understanding. By transforming CT and MRI scans into intuitive, lifelike 3D avatars, instantly and without segmentation. The company’s flagship product, Avatar Medical Vision, empowers physicians to communicate more effectively, improve workflow efficiency, and build patient trust through shared understanding. Originating from research from Institut Curie and Institut Pasteur and strengthened by a strategic partnership with Barco, the company is advancing the Clinic of the Future across the U.S., Europe, and Asia. Seeing is Healing. Learn more at avatarmedical.ai.
