

Apollo Information Systems Corp.

Apollo Information Systems Corp offers Fortinet data communications and networking equipment products and related services through this DIR contract. This contract provides eligible Texas public entities access to Fortinet's full portfolio of enterprise networking and security hardware at competitive DIR-contracted pricing.

Customers can purchase directly through this DIR contract. Contracts may be used by state and local government, public education, other public entities in Texas, as well as public entities outside the state. **Resellers are not available for this contract.**

Apollo DIR Contract Information

- [Contract Number: DIR-CPO-5359](#)

Awarded: June 5, 2025 | Expires: June 5, 2030

Our Products and Services

Apollo provides the complete Fortinet product portfolio through this contract, including but not limited to:

Fortinet Next-Generation Firewalls (NGFW)

FortiGate series firewalls delivering enterprise-grade security for all network sizes — from branch offices to large enterprise data centers. Includes stateful firewall, IPS/IDS, SSL inspection, web filtering, and application control.

Fortinet Secure SD-WAN

Integrated SD-WAN with advanced security in a single FortiGate appliance. Provides optimal WAN performance with built-in security and simplified management.

Fortinet Network Switches (FortiSwitch)

Secure, simple, scalable Ethernet access layer switching fully integrated with FortiGate for unified network visibility and control.

Fortinet Wireless Access Points (FortiAP)

Secure wireless LAN access points managed through FortiGate, providing enterprise Wi-Fi with integrated threat protection and centralized management.

Fortinet Data Storage Solutions

FortiAnalyzer and related storage appliances providing centralized log management, analytics, and compliance reporting across the Fortinet Security Fabric

Fortinet Security Fabric Accessories

FortiManager (centralized management), FortiAuthenticator (identity and access management), FortiToken (multi-factor authentication), and other Security Fabric components.

FortiCare Support & Maintenance

Fortinet's FortiCare support services include 24x7 technical support, firmware updates, hardware replacement, and advanced support tiers.

Related Professional Services

Implementation, configuration, design consulting, technical support, and training services related to the Fortinet products awarded under this contract.

TX-RAMP Certified Cloud Products: Several SaaS products available through DIR-CPO-5249 are TX-RAMP certified. View the current list at: [TX-RAMP Certified Cloud Products](#)

Contract And Pricing
