FEATURES

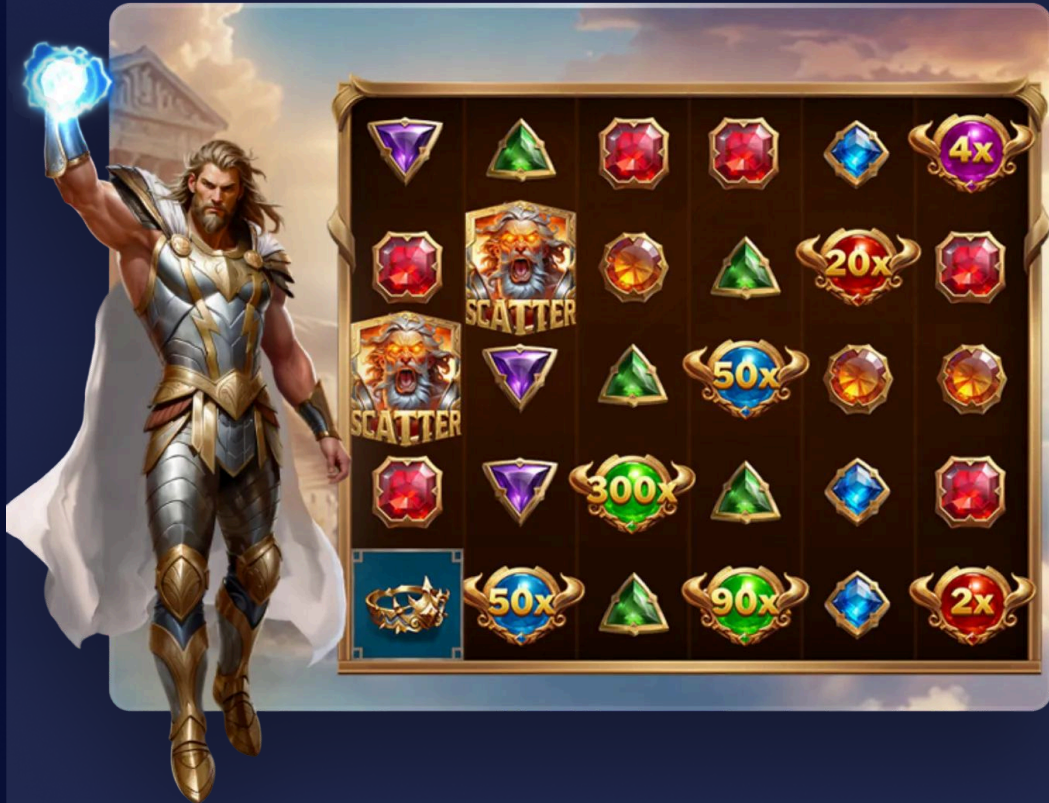

TUMBLE FEATURE

The Tumble feature triggers after every win, removing winning symbols and dropping new ones for continuous cascades. Each tumble can chain into another win, building excitement and creating chances for massive multipliers to hit.

BONUS GAME

Trigger Free Spins by landing four or more Scatter symbols. All multipliers collected during tumbles stay active throughout the round, boosting every win. Retriggers add even more spins, keeping the thunder rolling for as long as luck strikes.

MULTIPLIERS

During any spin, Zeus can strike the reels with random multipliers ranging from x2 to x500. When part of a winning tumble, all active multipliers combine to deliver electrifying payouts that can turn small wins into thunderous rewards.
