**A WE LIGHTING**
Designed by we, Customized for you

GENERAL INFORMATION

The SILEX pendant is a minimalist architectural lighting element defined by its slender cylindrical form and precise proportions. Designed for visual clarity and compositional flexibility, SILEX delivers soft 360° diffused illumination through a refined acrylic diffuser, creating an even and comfortable ambient glow. Its modular construction allows for multiple height and lens length configurations, making it ideal for both single pendants and clustered installations. With a wide range of finish options and subtle detailing, SILEX integrates seamlessly into contemporary residential, hospitality, and commercial interiors, offering a balanced combination of function, customization, and modern design restraint.
