

GENERAL INFORMATION

GRIT is an outdoor bollard luminaire characterized by a robust cylindrical form and a domed top that gives the fixture a strong, industrial presence. The die-cast aluminum body combined with a clear acrylic diffuser ensures durability while maintaining a restrained and balanced visual expression suitable for architectural environments. Designed to provide uniform 360° symmetrical illumination, GRIT is ideal for pathways, walkways, and landscape areas where reliable performance and a bold, utilitarian aesthetic are required.
