## GENERAL INFORMATION

AVORA is a refined wall luminaire defined by its pure spherical form and subtle material contrast. The softly diffused glass globe appears to float against the wall, creating a calm and balanced visual composition with a warm, contemporary character. Designed to provide gentle ambient illumination with a 360° beam distribution, AVORA is ideal for residential interiors, hospitality spaces, and feature walls where atmosphere, visual comfort, and understated elegance are desired. Its compact scale and wide range of finishes allow seamless integration into both minimal and expressive interior schemes.
