

GENERAL INFORMATION

Freccia is a refined wall luminaire featuring a slim vertical profile combined with the soft visual character of faux alabaster. The illuminated panel provides smooth, evenly diffused light, creating a warm and comfortable ambient glow while emphasizing the fixture's elegant architectural form. Designed to complement contemporary interiors, the clean geometry and balanced proportions allow the fixture to function both as a decorative accent and a functional lighting element. The stainless steel structure paired with the faux alabaster diffuser creates a sophisticated material contrast suitable for residential, hospitality, and commercial spaces.
