

GENERAL INFORMATION

VECTA RUST B is an outdoor bollard defined by its slim vertical form and precise directional light output. The linear illuminated surface creates a clean beam of light, delivering controlled asymmetrical downward distribution that enhances pathways while minimizing glare and light spill. Designed for landscape and architectural applications, VECTA RUST B provides functional guidance lighting with a refined, minimal presence. Its rust-effect metal finish introduces a natural, textured character that integrates seamlessly into outdoor environments, combining durability with a strong contemporary aesthetic.
