

GENERAL INFORMATION

NOVA PRO is a contemporary wall luminaire defined by its sculptural vertical form and soft ambient illumination. The integrated acrylic diffuser creates a warm, evenly distributed glow, while the rounded metal body adds depth and architectural character to the fixture. Designed for residential interiors, hospitality spaces, and decorative wall applications, NOVA PRO combines compact geometry with a refined contemporary aesthetic. Its balanced composition and wide range of finishes allow the fixture to function as both a subtle lighting solution and a decorative design element within the space.
