

GENERAL INFORMATION

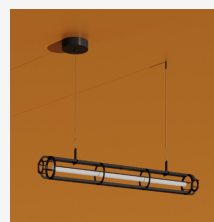

ASTRO is an industrial-inspired linear pendant defined by its exposed structural details and high-output illumination. The combination of aluminum construction, metal side covers, and protective grille elements creates a bold architectural presence with a distinctly technical aesthetic. Designed for offices, creative studios, hospitality environments, and contemporary commercial interiors, ASTRO delivers powerful direct illumination while maintaining a refined visual balance. Its elongated form, customizable finishes, and modern industrial character allow the fixture to function as both a functional lighting solution and a statement design element within the space.
