

GENERAL INFORMATION

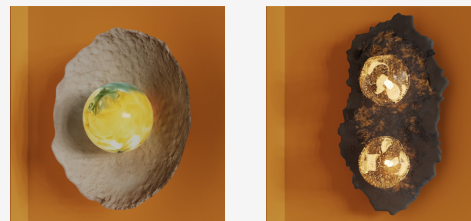

ASEA 12 is a decorative wall luminaire that combines handcrafted stoneware porcelain with hand-blown glass to create a rich and tactile visual presence. Inspired by organic forms and natural textures, the fixture brings warmth, depth, and artisanal character to the surrounding space. Designed for residential interiors, hospitality environments, and feature walls, ASEA 12 delivers soft 360° diffused ambient illumination through its illuminated glass center. The contrast between the textured porcelain body and luminous glass element transforms the fixture into both a functional light source and a distinctive decorative accent.
