

GENERAL INFORMATION

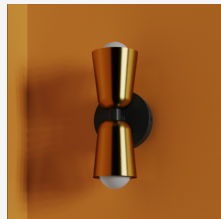

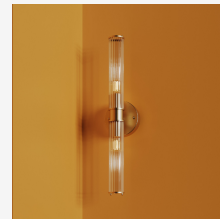

V2 is a minimalist wall luminaire defined by its clean cylindrical form and balanced up-and-down illumination. The compact aluminum body delivers both direct and indirect light, creating soft architectural beams that add depth and atmosphere to surrounding surfaces. Designed for residential interiors, hospitality environments, and accent wall applications, V2 combines functional lighting with a refined contemporary aesthetic. Its simple geometry and dual light emission make the fixture suitable for both decorative and ambient illumination within modern spaces.
