

GENERAL INFORMATION

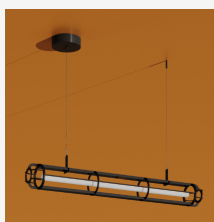

The ULTRA MARINER PLANTER integrates architectural LED lighting with suspended greenery in a distinctive linear system designed to bring illumination and biophilic elements into a single composition. Its exposed tubular frame creates an industrial-inspired aesthetic, while integrated planter modules introduce natural texture and visual softness. Available in multiple lengths with high-output LED illumination, 0-10V/DALI dimming, and a broad selection of finishes, the system is well suited for hospitality, restaurants, workplace, retail, and other design-driven commercial interiors.
