

GENERAL INFORMATION

The CARVELI Wall Sconce pairs sculptural clear glass with a compact architectural form, creating depth and visual movement through its fluid optical surface. The integrated LED source illuminates the glass from within, producing soft diffused direct light while highlighting its dimensional contours and reflections. With 90 CRI, multiple CCT and wattage options, remote 0-10V dimming, and customizable RAL and metallic finishes, CARVELI is well suited for hospitality, high-end residential, corridors, lounges, and decorative commercial interiors.
