

GENERAL INFORMATION

The CINDER Ceiling combines a sculptural ceramic form with layered direct and indirect illumination. A frosted acrylic diffuser provides soft, uniform downlight, while indirect illumination creates a subtle ceiling glow that accentuates the fixture's dimensional profile. Featuring 90 CRI, integral 0-10V dimming, multiple CCT and output options, and an extensive selection of RAL, wood-effect, and metallic finishes, CINDER is designed for hospitality, residential, and commercial interiors where decorative character and visual comfort are equally important.
