

GENERAL INFORMATION

The SNAKE Wall Light transforms a simple linear composition into a distinctive decorative statement through its offset geometry and exposed lamp arrangement. Crafted from aluminum and brass, the fixture combines a slender bent arm with compact wall-mounted elements and two opposing E26 light sources, producing both direct and indirect illumination while casting expressive shadows across the surrounding surface. Its sculptural proportions give SNAKE a strong graphic presence without overwhelming the interior, making it well suited for hospitality spaces, corridors, lounges, bedrooms, restaurants, and contemporary residential or commercial environments.

SPECIFICATIONS
