

GENERAL INFORMATION

MELUNA is an acoustic pendant defined by its soft vertical silhouette and integrated diffused illumination. The sculptural P.E.T. felt body gently surrounds the central light source, creating a warm and balanced glow while contributing to improved acoustic comfort within the space. Designed for hospitality environments, offices, and residential interiors, MELUNA combines functional lighting with sound-absorbing performance. Its clean geometric form and wide range of acoustic felt finishes allow the fixture to function as both a decorative focal point and an architectural acoustic element.
