

## GENERAL INFORMATION

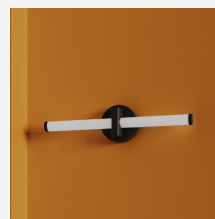

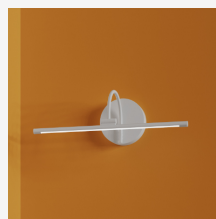

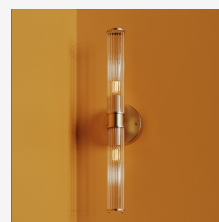

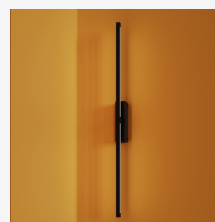

The AXIS S Wall is a slender architectural wall fixture defined by a luminous vertical acrylic tube anchored by compact brass mounting elements. Its minimal linear composition creates a refined graphic accent on the wall, while the frosted acrylic diffuser provides soft 360° diffused illumination. With a 39.4" overall height, 15W integrated LED, multiple CCT options, CRI 90, and integral 0-10V dimming, AXIS S is well suited for hospitality interiors, corridors, feature walls, residential spaces, and contemporary commercial environments.

## SPECIFICATIONS

|                    |                                                           |
